## Product Description

The fullness and thickness of the simulated artificial plastic fake grass ball make people feel the high-density grass ball layer at a glance, and it uses sufficient raw materials, which is definitely synonymous with beauty and practicality.

The fake grass ball blades are not only firmly fixed on the ball, but also emit an eye-catching luster and feel quite good. The uniform size of the leaves provides a sense of coordination to the overall shape, as if a green lawn is leisurely spread out on the top of the shopping mall.

The installation of artificial green grass ball is also very convenient. The quick assembly design of the raw materials makes the installation process easy and pleasant, and it feels soft to the touch and is not easy to change color even if it is exposed to sunlight and rain for a long time. Decorating the ceiling of shopping malls with fake grass ball can not only maintain a consistent appearance, but also don't have to worry about being affected by the weather.

### Advantage:

No maintenance required  
Vivid  
Beautiful and practical  
Various shapes

### Efficient and quick installation/worry-free after-sales service:

1. Each grass ball has buckles/pins
2. Install the buckles/staples accordingly
3. If grass falls off during the installation process
4. Simply plug it back in
